Primary research allows organizations to address issues and explore issues specific to their own situation.Unlike secondary research, primary research also provides proprietary information that can give the company a competitive advantage. Everything else will be erased and the only way to recover is through the Undo button (CTRL + Z). They also spend more time teleworking, as new technology allows them to work from remote locations. For example, an autobiography is a primary source, while a biography is a secondary source. Collection of subscription and registration data. An example formula could be =A2&ÂÂÂÂÂÂ2â2&B2.
